#### Agenda Item #8: Suggestion #2

This suggests some changes to the large “Key Decisions” subsection discussed at the Feb. 2018 meeting.

- Move “5.3.1. Key Decisions” from the “Recommendations” section to its own top-level section called “6. Equipment (“Product”) Decisions.” This should go after “5. Recommendations” and before the current “6. FAQ.” It can also go after the new “Implementation Order” section if that section is adopted.
- See the diff in the agenda packet for additional changes re:
  - Header formatting
  - Language re: accessibility
